Summary

I am a dedicated Computer Science Engineering student with a passion for leveraging technology to drive innovation. Quick learner. Problem-solving, with communication and leadership skills-seeking entry-level opportunities, eager to contribute to innovative projects.

Experience

1Stop.ai – Data Science
Internship

08/2023-
09/2023

Webstack Academy – MERN stack
Internship

08/2023-
present

Education

University BDT College Of Engineering - India
Bachelor of Engineering - BE, Computer science and engineering

2020-present

Sri Siddaganga independent PU science College
PCMB

2018-2020

Siddaganga CBSE school

2017- 2018

Skills

Technical Skills : Python •HTML •CSS • MySQL • MS word •MS Excel •Data analytics

Soft Skills: Communication • Leadership • Analytical skills •Attention to detail • Problem-solving skills

Languages

English – Proficient Kannada- Native Hindi- Advanced Korean- Beginner

Projects

SciQuiz Hub

A web application quiz game that tests your knowledge of science. It is created using HTML CSS and JavaScript, and the questions are loaded from the Open Trivia API.

Hate Speech Detection (Internship)

This data science project aims to develop a model for detecting hate speech in text. The model has been able to detect hate speech with an accuracy of over 87%.

SMS Spam Classifier (Internship)

This data science project aims to develop a model for classifying SMS messages as spam or ham. The model has been able to classify SMS messages with an accuracy of over 95%.
